DESCRIPTION

Sunseeker are renowned for building the finest performance sports yachts. Each Sunseeker yacht is hand built and finished ensuring exceptional standards of design and finish.

The Sunseeker Manhattan 66 is an exciting evolution within the Sunseeker range.

This model has the addition of a sleek flybridge, which offers generous sunbathing areas. Sip champagne on deck in the sun or under the shade whilst listening to music or socialising with your friends or family.

This vessel exudes a sense of open space across all its areas, giving it that superyacht standard without the length and width of this category.

Thanks to her remarkable engineering and sound-proofing insulation, the Manhattan 66 cruises the Mediterranean in serene silence, guaranteeing a peaceful and restful stay throughout your charter.

This mini superyacht was designed for entertainment and socialisation, comfortably accommodating up to 12 guests. It is an exceptional space for hosting dinner parties, onboard meditation and yoga sessions, and mingling with colleagues and peers during your downtime.

The Manhattan 66 is an excellent platform from which to commence your snorkelling and diving sessions off the many Mediterranean coasts this vessel can transport you to, and this powerhouse can reach maximum speeds of up to 30 knots.
